

SMG Music Box

Installation Details

When the SMG Music Box reaches you, it is ready to start the music broadcast. You just need to follow these instructions:

1) The content:

a) SMG Music Box b) Adaptor
c) Aux cable d) Ethernet cable

2) Please connect the ethernet cable to your modem and to the SMG Music Box.

3) Please connect the aux cable's small end (3,5 mm) to the SMG Music Box.

4) Please connect the adaptor.

5) Please connect the red and black cables to your amfi and connect the adaptor to the electricity.

6) In one minute your music broadcast will start. Please make sure that your amfi's volume is on and make sure that your cables connected correctly.

We are always ready to for you if you need any assistance.

You can easily reach us via the phone numbers listed on your music box.

During your phone call, stating your ID is very important in order us to help you quickly.
